# Pull Box 2.0

The View Pull Box is a single-door wall-mounted enclosure that provides a protected connection area where cables from a View 2.0 Control Panel enter a building's cable conduit system. This product is designed to attach to the top of a standard View 2.0 Control Panel enclosure with matching dimensions to ensure perfect integration.

Features

- Provides protection for exposed cables and connection points out of the top of the control panel enclosure.

- Improves the attractiveness of the overall installation.

Pull Box

Control Panel
